SUMMARY

As a recent computer science graduate, I have hands-on experience with Unity for AR/VR applications and React web development. I am a quick learner with strong problem-solving skills and software programming knowledge. I am a great asset to any software development team because of my capacity for quick learning, motivation to successfully contribute to any team, and desire to keep learning and developing.

EXPERIENCE

Software Developer Intern

[Hudsmer Business Solutions](#) 📅 02/2025 - 06/2025

Business solution provider focusing on software development.

- Worked on creating web applications using React.js.
- Gained practical skills in Unity for AR/VR.
- Learned SQL during the internship.

EDUCATION

Bachelor of Engineering

[National Engineering College](#) 📅 08/2023 - Present 📍 Kovilpatti

Diploma

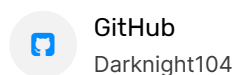

[Scad Polytechnic College](#) 📅 08/2021 - 07/2023 📍 Tirunelveli

TRAINING / COURSES

[Oracle Apex Training By Vibathi Labs](#)

Low code web development software

FIND ME ONLINE

KEY ACHIEVEMENTS

Awards

First Prize in District Level Science Expo awarded for innovative projects

SKILLS

C# Java HTML CSS React

Node.js Unity SQL

Augmented Reality/Virtual Reality

PROJECTS

Multiple Projects

Various projects related to web and game development

- created a secure chat application with React.js, Node.js, Socket.IO, and JWT authentication.
- used Unity to create a virtual tour of the college's campus that highlighted key locations.
- Using Unity and ARFoundation, an AR Furniture Viewer app was created that lets users interact with 3D furniture models.
- In Unity, a 2D game called Endless Beach Ride was created with interactive controls.

INTERESTS
